### Change Requirement :

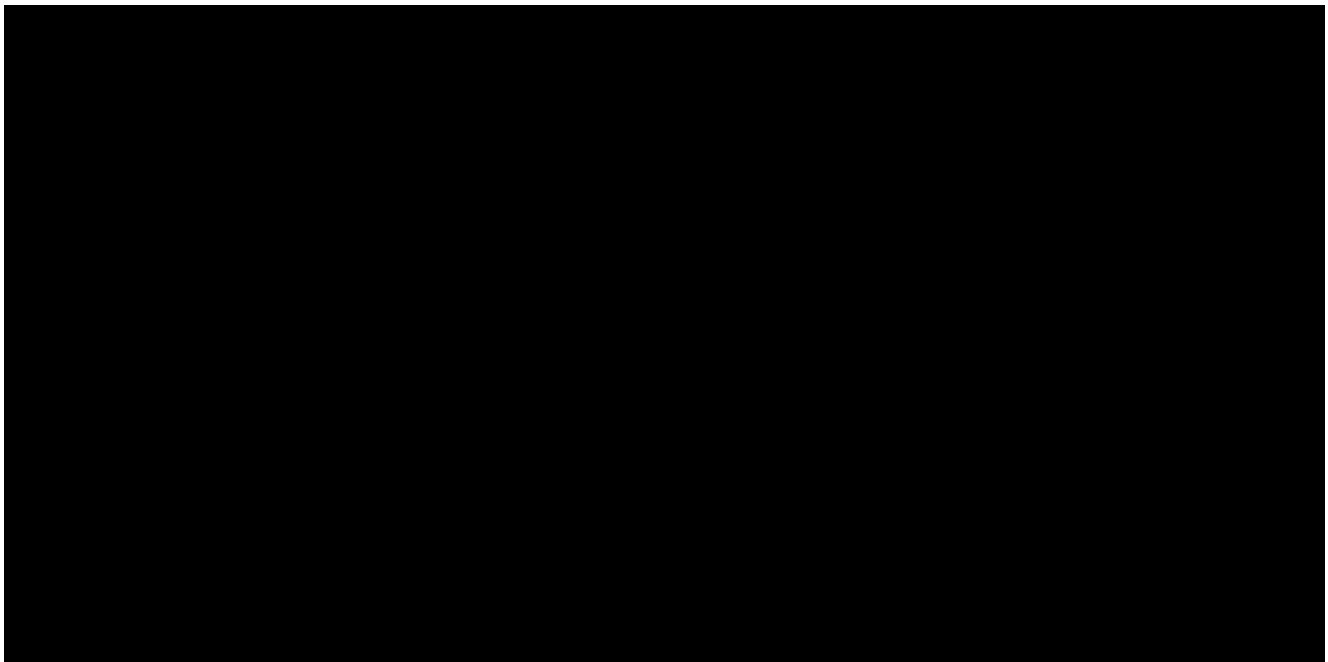

An adjustment is required to edge tolerance, allowing reduced stress during rotation. With reference to drawing E2, note that tolerance at points H1,H3,E1,E2,E3,E13 = -2/+4 is now changed to +/-3.0. Pending final re-test, change requires sign-off by JLA/KK2. Plants 2-9 to be notified of change order.

Project Manager	Mr J. Jones	Responsible Engineer
